

Carina Hong

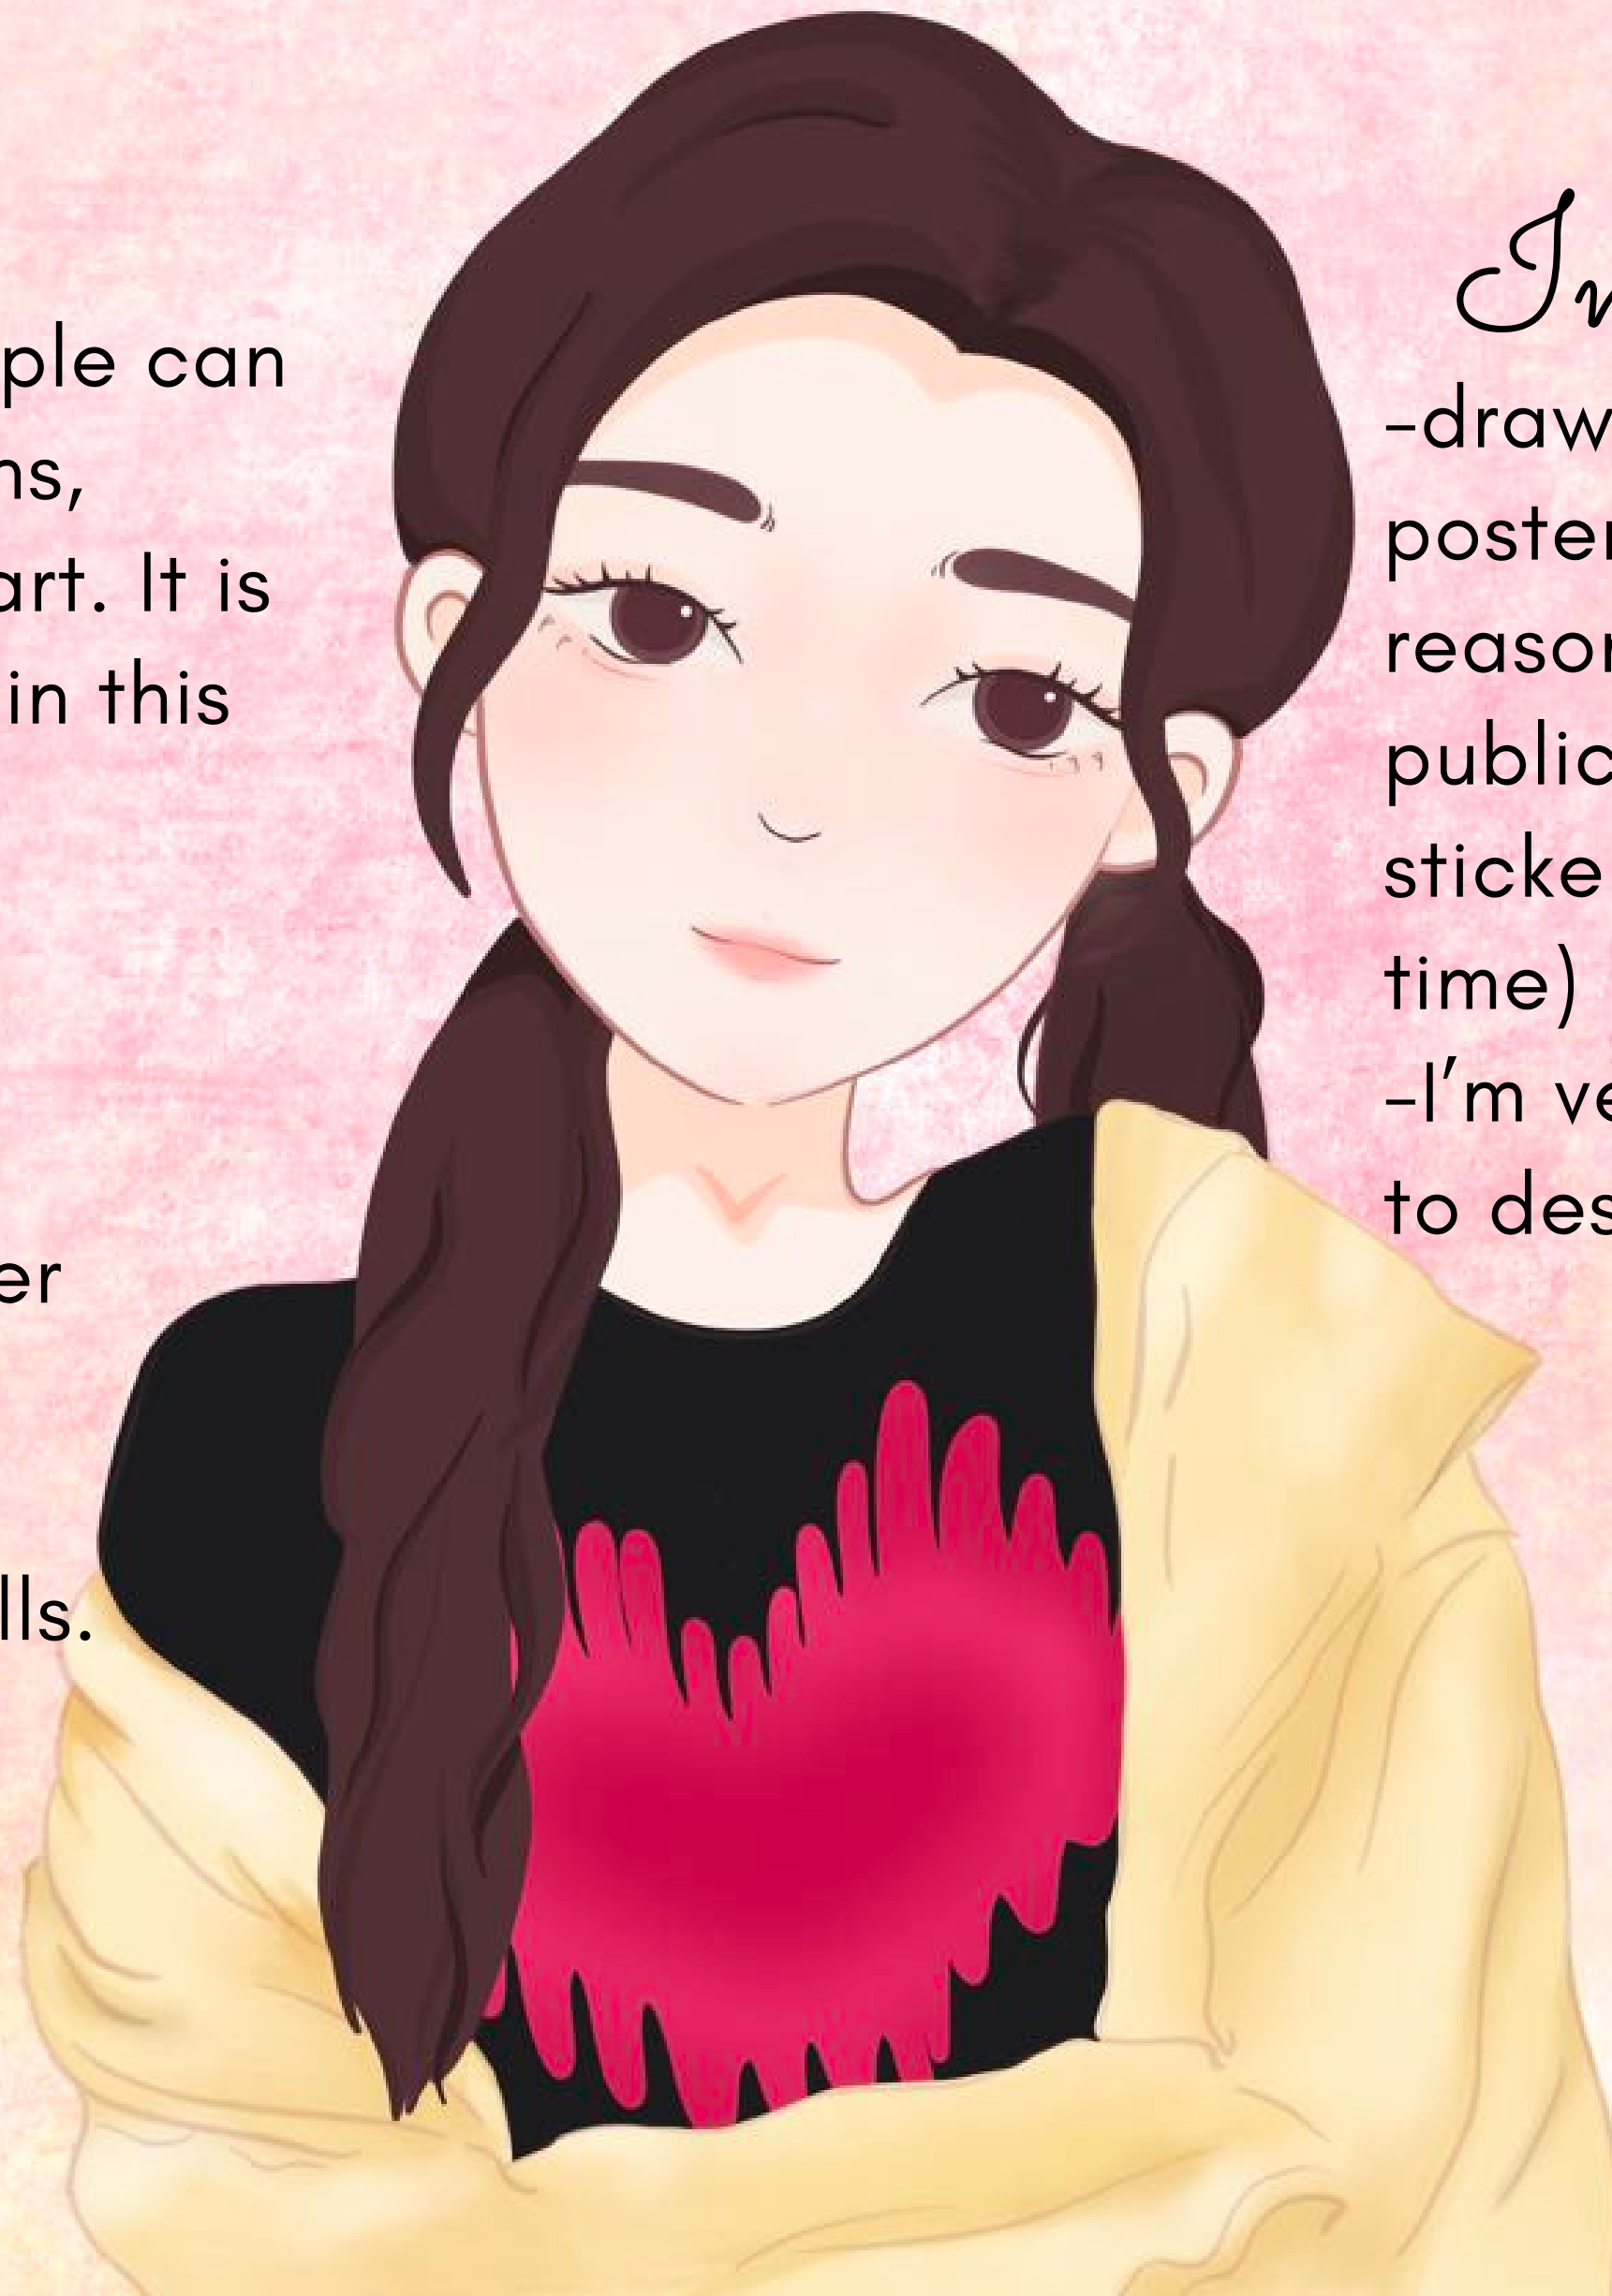

Graphic Design

-Graphic design is where people can express their feelings, emotions, thoughts etc. through digital art. It is also a way of communication in this online community.

Skills

-I know how to sketch on paper but I haven't work on it for almost 2 years, so I'm not confident with my drawing skills.

Interests

-drawing, sketching, designing posters, stickers (This is also the reason why joined in HFH publication: we design posters, stickers, banners, postcards all the time)
-I'm very interested in learning how to design using digital tools.

Goals

-My goals are to learn new digital tools such as Affinity Designer and learn techniques when designing.
