Gun Control

Gun Control

What is the problem in U.S with gun control?

Have you ever experienced the sense of despair of hiding around because of guns? This is happening on some part on this world, but the most representative country is U.S.A. U.S.A is a country that has a less strict rules for gun control, if someone use the gun improperly it can cause something bad happen for example: murder, gun fight or even school shooting! It all causes a terrible consequence.

School Shootings

School shootings refer to school shootings, especially crimes of indulging murderers, most of which occur in countries where guns are endemic, such as the United States. The reason for this situation is that violent people are stimulated by the outside world, or their personal mental imbalance, unable to withstand the pressure of life, campus bullying, etc., so they have extreme anti-social behavior. Now, we are going to talk about one of the most offensive and scariest school shootings, "Stoneman Douglas High School Shooting." On February 14, 2018, a gunman shot with a semi-automatic rifle at Marjory Stoneman Douglas High School in Parkland, Florida, killing 17 people and wounding 17 others. Later, a suspect was later identified as 19-year-old Nikolas Cruz. The fourteen students and three staff members killed were: Scott Beigel 35, Nicholas Dworet 17, Aaron Feis 37, Jaime Guttenberg 14, Chris Hixon 49, Luke Hoyer 15, Cara Loughran 14, Alaina Petty 14 and more. all these living beings has ended by the guns. So, the activist for gun control is starting the action.

MSD (Never Again)

This is an American activist student-led community, it formed by a group of twenty students attending the Marjory Stoneman Douglas High School. Never Again MSD has inspired students from across the country to protest the nation's gun laws. Also, some student has "lie-in" at the White House on February 19, 2018.

How can gun control improve in U.S?

Because U.S.A has allowed citizen to own their gun. So, the citizen of United States can carry

gun almost everywhere (in some states) for ''protecting themselves" as a result this also harmed the safety of people. So how we can improve it? Maybe we can let everyone who buys guns, must include a registration and reduce the area where guns can be carried and also upgrade the security.

Gun has really harmed U.S.A citizen's safety so we really need to control it. If we can't stop America from selling guns to people, then we have to control it before more terrible things happen.
