

# Individualism and Humanism

4/5

Humanists want to balance their faith on religion with their dignity. They searched for objects and knowledge left behind by the ancient greek and roman in an attempt to learn more about the classical world and the past

4/5

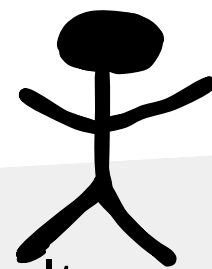

## Value of Education

People started teaching more about methods of experimentation and observation. People started to propose new ideas and thoughts about the stars and human bodies

3/5

## Humanities

Humanists studied subjects about culture and life including things like grammar, history, poetry, ethics, and rhetoric. The subjects were combined into a group which was called Humanities.

3/5

## Secularism

Secularism questions the Catholic Church and the laws they claim to have been created by god. The church believed that the afterlife was more important than living, while the humanists believed that they should enjoy life and use their minds to question and discover.
