BEST IDEA AND CLIENT

Best IDEA

- -Translator

PROBLEM

Student is always confused or don't by the know word in the text, passage and it can cause them misunderstand the passage or text

Solution

They need a translator to avoid them from being confused or misunderstand the word.

Why

It can level up the understanding of the passage or text and make student, also make student not feeling so boring or different understanding to passage or text.

CLIENT

- Student (Who need help to find word they don't know)

WHAT CONCERN

- Difficult to contain all the word
- How to connect the player and the words
- How to spell and find that spelling word

COMPONENT NEEDED

List component types needed

- Translator
- Player
- Label
- Picture
- TextBox

Possibilities for another item

- Seond recorder
- Speech recorder
- Horizontal lap

APP PROPOSAL

- In one or two coherent paragraphs , explain

I choose student, because student need to translate the words they don't know to read or did homework
